Member Of 
The SIR Group

AT SIR, we consider PETS as part of the family.

We say that because we love our dogs, cats, parrots and understand the bond that is between us and our animal companions.

They are our friends for life and they deserve the best we can give them.

With this in mind, SIR's Complete Move Solutions ensures that with the same touch and expertise that we apply to moving your personal treasures, we take it a step further and apply it to our furry friends.

PRE - MOVE ADVICE

All moving puts tremendous stress on a family. It is our aim to ensure that we minimise the process for you and your animal companion.

With various quarantine laws, breed and type limitations in each country and pre-conditions such as rabies vaccinations, there is a lot of information and preparation to consider before each move.

PET PREPARATION

Once confirmed that your animal companion is able and fit for international travel, it is recommended that you start accustomisation for the travel, taking into consideration the duration, confined spaces and separation anxiety.

All animals are transported in plastic kennels/crates so it is imperative that you get your pet comfortable prior to travelling.

SERVICES PROVIDED BY SIR MOVEPET

- All travel bookings, arrangements, confirmations on direct flights
- Handling to and from your home/airports at current and new location
- All documentation
- Processing customs clearance documentation
- Provision of USDA and IATA approved flight kennels
- Coordination of quarantine requirements
- Coordination of health examinations and certifications where required
- Coordination of vaccinations where required
- Prioritising your pets's health and safety

IMPORTANT POINTS TO NOTE

Rabies Blood Test

The United Kingdom requires all pets to undergo a blood test to ascertain the level of rabies neutralising antibodies

Sedation

We will not move pets that have been sedated.

Aggressive Behaviour

Animals that display aggressive tendencies may be deemed as unfit for travel.

Animals We Do Not Ship

We do not ship laboratory animals, animals sent to laboratories and animals for breeding purposes.

Questions Often Asked

1. Where is/are my pet/s located in the aeroplane?

Pets are flown as excess baggage or as cargo in the cargo hold of the aeroplane.

2. Can both my pets travel in the same kennel?

No. Due to safety requirements.

3. Can I arrange to fly on the same flights as my pet/s?

Yes based on availability.

4. When should I confirm my pet/s move?

3-6 months in advance.

5. Can I check on my pet/s while on flight?

Unfortunately not.

6. Can I use my own kennel/crate?

Yes, as long as it is approved and meets size requirements.
